

## Circular for Saturday, 9<sup>th</sup> May 2020, Class teacher period in classes 6-12

Dear Parent

Greetings from Pragyan!

It's been one month that students have been taking their online classes and learning new concepts very diligently. At this juncture, it becomes imperative for teachers to take feedback from the students. Class teachers play an integral role in communicating with their students and students always look forward to interacting with their class teachers to solve their queries, issues, and share other views with their class teachers.

Keeping this in mind, Saturdays are being planned as a class teacher period of an hour, from 11.00 am to 12.00noon. During this slot, students can

- \* Discuss their queries related to any subject
- \* Issues related to Classwork, homework, completion and submission
- \*Share any new skill learnt
- \* Any other issues related to the classes

**Along with the discussion, the following activities will also be conducted in the respective classes**
