	Lavanya Saxena

MORNING ASSEMBLY [VI-VIII]

This week during the morning assembly students of classes VI-VIII presented a talk on 'Panini' a great sanskrit grammarian also known as the father of sanskrit language and debated on the topic, 'Every cloud has a silver lining, adversities make us stronger'. Many students agreed by saying that, yes we are able to develop many life skills like problem-solving skills, patience, expression of views during their adverse time, whereas sometimes adversities break a person to that extent, where it becomes impossible to resume their normal life. Students presented songs, poems and had storytelling sessions in oratory skills assembly. They also got the chance to discuss their views in the open forum on the topic 'Violent video games should be banned'.

PARENTAL INVOLVEMENT [VI-VIII]

On 4th Oct, Ms. Sheetal Gupta mother of Priyanshee Agarwal VIB presented a talk on the topic 'Need of acceptance of differences'. In class VII, Mr. Goutam Choudhury, parent of Riana Choudhury VII C, introduced students to Genetics. In class -VIII Nitisha Jain Mother of Ansh Jain VIIIB, presented a fruitful session enlightening the students about Cyber Security.

Communication

Language: *the principal method of human communication, consisting of words used in a structured and conventional way and conveyed by speech, writing, or gesture"

Script: *the letters or characters used in writing by hand; handwriting"

PARENTAL INVOLVEMENT [IX-XII]

On Monday 4th October in Class XI assembly, Ms. Anjum Khan mother of Daria Khan XI-A, presently works as R&D head- specialty chemicals, at a research lab in Noida. Her field of interest is Special Chemicals used in food and pharmaceuticals. She spoke about the importance of the fundamentals of Chemistry. She emphasized the fact that people should have a basic understanding of their subjects. It was a very informative session for all.

CLASS TEACHER PERIOD : VI-VIII

The learners of Class VI did assembly practice for the upcoming assemblies. They learned button tucking as a part of work education in the class teacher period. Work education activities help children to develop coordination, a sense of order, and concentration. They also had the 'Painting and Best out of waste' Inter Class Competition this week during class teacher period. In the first week of October, students of VII class planned for their upcoming assemblies and special assemblies. They were shown a video on sign languages and asked to form a few sentences for the same. As this activity promotes better awareness of and sensitivity to the deaf and hard of hearing community. It is one of the important skills which can make communication, a very important part of personality, more flexible. Students of class VIII utilized their class teacher period by practicing for the morning assemblies. Students in the physical school had fun practicing in the school after a long gap.

PHYSICAL FITNESS: VI-VIII

Students of classes VI-VIII enjoyed doing different drills to improve fundamental skills of their games i.e. basketball, football etc. They also played matches to develop team spirit.

ATAL TINKERING LAB

SESSION : VI- XII

In an endeavour to develop scientific temperament in the young learners of today, Pragyan School, proudly set its steps into the noble mission of knowledge enhancement through Atal Tinkering Lab. The students of classes VI-XII attended the introductory session on ATL. Thereafter, students attended their first hands-on Robotics session on making a car using Mechanz kit 9+. The students were explained about basic tools in the kit and their functions. Students enthusiastically attended the session and cleared their queries with the trainer and teachers.

ATAL TINKERING LAB SESSIONS :VI-XII

SOCIAL CLUBS

CLASS VI-XII

- DEBATING AND JOURNALISM CLUB
- INTERACT CLUB
- HEALTH AND WELLNESS CLUB
- ECOLOGY CLUB

INTERACT CLUB: VI- VIII

This week we had the first meeting with the members of Interact Club after they re-joined physical school. The main motto of Interact club was discussed once again at the beginning of the meeting to encourage our young members. One child from each class is selected as a representative of the Interact Club who could take the responsibility to bring about more awareness among the young learners of Pragyan School. The learners were encouraged to make contributions for the ongoing 'Daan Utsav' and be a role model for everyone around. The task of contributing towards 'Notebooks and Stationary Drive' has been extended till next week and the learners were motivated to understand their responsibility and work for the noble cause.

INTERACT CLUB: IX-XII

On Tuesday 5th October, 2021, the members of the Interact Club had a meeting in the school auditorium to discuss the initiatives of the Interact Club. The Interact Club is conducting “Daan Utsav”, a donation drive in collaboration with the NGO, Goonj, the members were encouraged to make the donations themselves as well as convince their peers to make their donation to this cause. RID 3012 launched a project “UN-HUSH”, a mental health awareness campaign. The students were also briefed about it and were encouraged to join a series of sessions conducted by the Zonal Interact Representatives.

HEALTH AND WELLNESS CLUB [VI-VIII]

'Students of class VI-VIII attended the first offline Health and Wellness Club Meeting on 7th Oct'21. The meeting initiated with the introduction of student members, their expectations from the club and how they can contribute their best to the club. Thereafter, the teacher members discussed the activities planned for this month with the students. The first activity was to make them aware about the unhealthy habits that we usually follow and replace them with the healthy habits. The scientific reason was also explained about the habits to be followed. Students enthusiastically participated in the discussions and shared their feedback.

HEALTH AND WELLNESS CLUB [IX-XII]

The students of the Health & Wellness Club (Class IX-XII) visited the school campus & searched for stagnant water sources. Students were divided into two groups & headed by Club teachers, conducted a drive to identify the areas for Dengue mosquito breeding.

ECOLOGY CLUB [VI-VIII]

Topic-Water- A precious lifeline

On 7th Oct, the Eco club Session started with a discussion to sensitize students to the issue of water conservation. encouraging students to avoid wastage of water. Children were made aware of various water harvesting practices taking place in the school by visiting those places like recharge pits, 100% rainwater harvesting system, collection of rainwater in the tank (with the capacity of 70,000 liters), and its utilization in the washroom for flushing purposes. In the end, children decided to prepare stickers/slogans/signs for display at home and school.

ECOLOGY CLUB [IX-XII]

The Ecology Club meeting was held on 5th of October 2021. The students were tasked with the preparation of message slips towards creating awareness about energy conservation inside the school and at home. Further, the students were taken to the botanical garden where they were shown how cutting and grafting are done.

DEBATING AND JOURNALISM CLUB [VI-VIII]

Student members of the Journalism and Debating Club enjoyed their first session in physical school. They composed poems on the topic 'Festivals'. They were free to write in any of the three languages- Hindi, English or Sanskrit. They wrote out their ideas without worrying about format. They were encouraged to write freely about whatever emotion they wanted to convey in their poem.

DEBATING AND JOURNALISM CLUB [IX-XII]

To trigger creative writing skills. The students of the debating and journalism club once again assembled on 5 October 2021. This time they were asked to choose and write on one of the topics provided. They profusely spoke on the chosen topic and presented well-defined imaginary skills.

FOGGING AGAINST MOSQUITO BREEDING

As per routine the entire school campus was sprayed with mosquito repellent as a precautionary step to prevent any breeding of mosquitoes in this season.

TIP OF THE WEEK

1. Children Love To Spend Time With Their Parents.....

The least time leisure spent by parents with kid is 0.02 hours per day whereas the maximum being 2 hours per day.

2. Observational Learning is Very Powerful In Kids.....

Kids quickly learn from what they learn behaviours from television, Internet, Parents and Siblings.

3. Understanding Your Child Is One of The Most Important Things That You Should Learn As A Parent

This can be very helpful in becoming effective in guiding and nurturing your child as they grow and mature.

4. Self-Esteem is extremely important to the Happiness and Success of Children and Teenager...

This can be induced by positive Parent-Child Relationship and letting kids learn from their experiences
