

Happy New Year

2022

The image is a celebratory graphic for the New Year. It features the year '2022' in large, bold, 3D gold letters that are the central focus. The numbers are slightly offset and layered, with snowflakes appearing behind and in front of them. Above the year, the words 'Happy New Year' are written in a gold, cursive script. The background is a dark blue gradient, decorated with various gold elements: five-pointed stars of different sizes, small circles, and thin, radiating lines that create a starburst effect. The overall aesthetic is elegant and festive.

WEEKLY CIRCULAR SENIOR

31st December 2021
(Cir/PS/34/2021-22)

MORNING ASSEMBLY [VI-VIII]

कक्षा 6ब ने दिनांक 29 दिसंबर, 30 दिसंबर को प्रार्थना सभा में राष्ट्रकवि मैथिलीशरण गुप्त जी पर वार्ता और वाचन कौशल प्रस्तुत किया । जिसमें विद्यार्थियों ने मैथिलीशरण गुप्त जी पर वार्ता की जो गुप्त जी के साहित्यिक कार्य, उनकी कृतियों, साहित्यिक योगदान, भाषा शैली पर आधारित रही, हिंदी भाषा को समृद्ध करने के लिए विद्यार्थियों के प्रार्थना सभा के संचालन का आधार भी हिंदी भाषा को बनाया । भाषा के उत्कृष्ट शब्दों के प्रयोग ने प्रार्थना सभा में चार चाँद लगा दिए। टेड टॉक, कविता वाचन - वाचन कौशल के मुख्य आकर्षण रहे।

MORNING ASSEMBLY [IX-XII]

Students of class X conducted the class assembly from 28-30th December 2021. On 28th December'21, they debated on the topic-"Hindi literature is underrated". The assembly started with prayer, thought, debates against and for the motion, and book review. On 29th December'21, students gave a talk on "Ramdev" where they also showcased some of the Yoga positions and their benefits. On 30th December'21, students presented their oratory skills by explaining the 21 events that happened in the year 2021. Also an explanation of the National Anthem was well presented by Pari Aggarwal.

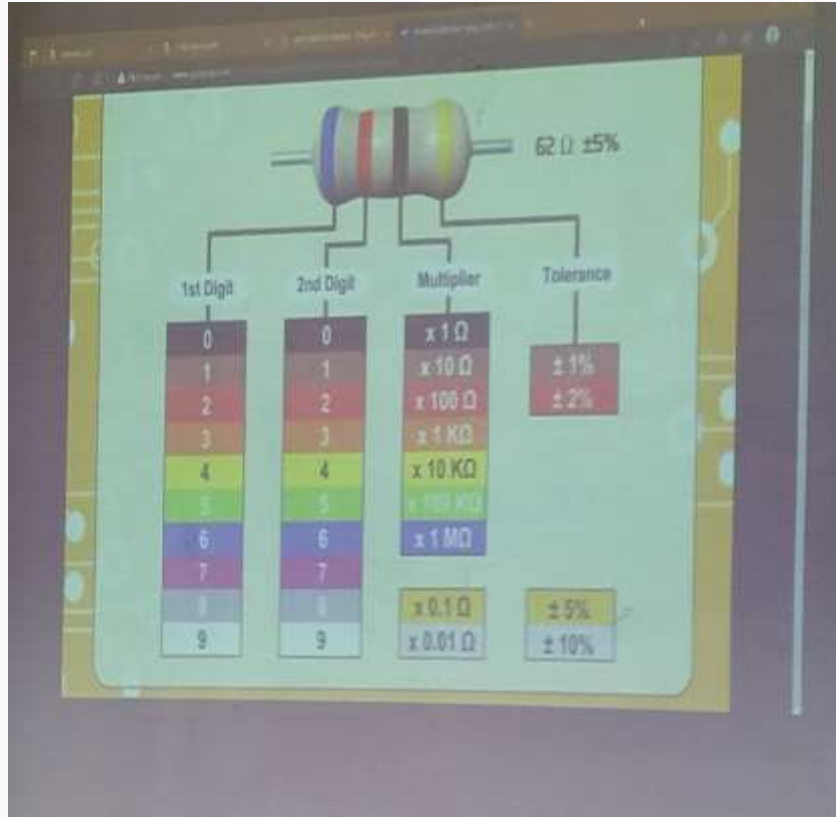

ATAL LAB SESSIONS

CLASS : VII,VIII,IX, X

Students of class VII and VIII attended the session on "Colour Coding of Resistors" in Electronics ATL Session on 27th December 2021. The concept of resistance, tolerance, colour codes were explained to the students. Ms Rajani explained the method to calculate the resistance value of the given resistor. Different examples were given to the students to calculate the resistance values.

ATAL LAB SESSIONS : VII- VIII

ATAL LAB SESSIONS : IX - X

This week Class 9th and 10th worked on the model of Transporter. They were guided on, how to make the models and use such models in daily life. The session was interactive and enjoyable

EACH ONE TEACH ONE: INTERACT CLUB INITIATIVE

In continuation with our endeavor of 'Each One Teach One'. On Tuesday 28th December, students of Interact club, Pragyan school, visited JONAS nursery, Alpha-II. Here our students taught the under privileged children residing in and around the Jonas nursery and taught simple calculations, General Knowledge, Calligraphy and helped them in reading story books. It was a very enriching experience for the Pragyan Students.

SOCIAL CLUBS

CLASS VI- XII

- DEBATING AND JOURNALISM CLUB
- INTERACT CLUB
- HEALTH AND WELLNESS CLUB
- ECOLOGY CLUB

DEBATING AND JOURNALISM CLUB [VI- VIII]

Student members of the Journalism and debating club enjoyed composing Hindi poems with a dash of humour. The idea was to energize them for their upcoming Hindi Kavita Vachan competition. They had a hearty laugh while listening to each other's composition. They wrote wonderful, exciting, and funny poetry that amazed them and made their friends fall down laughing.

DEBATING AND JOURNALISM CLUB [IX- XII]

The Debating and Journalism Club organized a Hindi debate on 28 Dec 2021 for the Club members. The topic for debate was 'मांगे मनवाने का आसान तरीका-जन आंदोलन' Students, armed with data and statistics, presented their views most vociferously. They said that protests cause a lot of harm to public property and also result in the wastage of time. The solutions can be found out by amicable discussions.

INTERACT CLUB [VI- VIII]

"Viruses don't discriminate and neither should we". Keeping in mind the crucial phase we all are going through, the learners of Interact Club discussed the necessary covid protocols we all must follow. They created thought-provoking posters as reminders for everyone around and displayed them in different areas of school premises which are in reach for teachers, students, workers, parents, and visitors.

INTERACT CLUB [IX- XII]

The Interactors of classes IX-XII discussed the poor condition of stray animals in the city. They came up with a lot of suggestions like feeding them and putting NEON bands on them to prevent them from getting hit by any vehicle during night time.

HEALTH AND WELLNESS CLUB [VI - VIII]

Student members of the Junior Health and Wellness Club participated in the discussion on "How to make society aware to fight against the COVID-19" in the club meeting on 30th December 2021. They came up with the idea to make posters that would be shared in their respective society. Sonakshi and Swastika of class 8B have pasted the posters in their locality with the motto of the Health and Wellness Club - "We share as we care". Also, posters created last week by the students- Akash Tiwari (7C), Sonali (7C), Arjun (8A), Veer (6B), and Ananya Deb (6B) on "Healthy Food Habits" were selected to be pasted on the dining hall soft board under the supervision of the teacher Members.

HEALTH AND WELLNESS CLUB [IX - XII]

The club members enthusiastically made the ply cards and posters regarding “COVID CARE” this week. It was coordinated by the club captain Mansi Mavi. Students wrote slogans on Proper mask-wearing, handwashing, sanitizing regularly, and social distance. Health and Wellness club collaborated with School Interact Club and Pragun Sethi of XA took the session on Covid care for the children during the “Each one teach one” campaign.

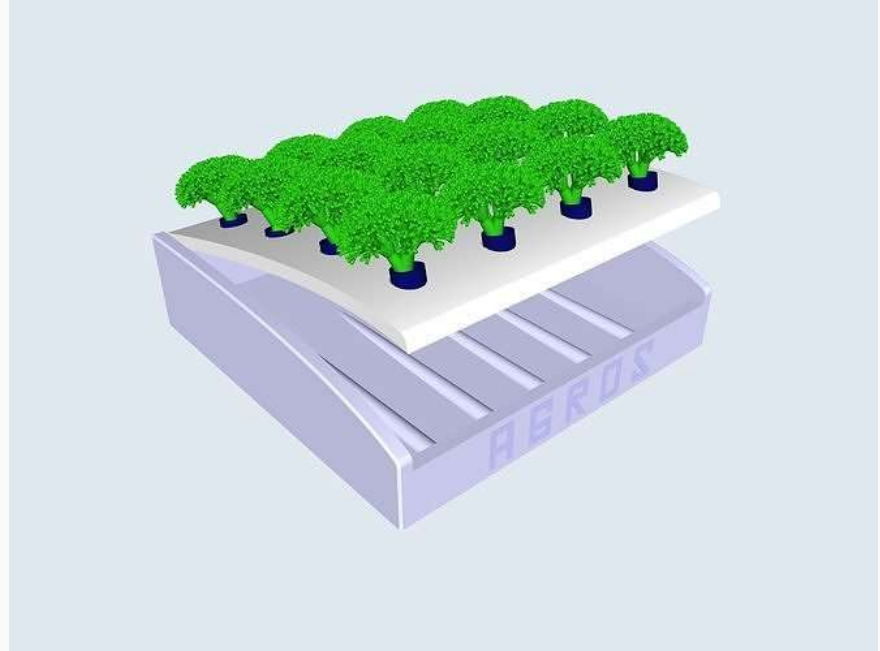

ECOLOGY CLUB [VI - VIII]

Eco club held a session 'Energy conservation' on 30/12/21. Students were made aware of conservation practices related to electricity and fossil fuel conservation on regular basis like regular servicing and ideal speed for a vehicle to perform best. Students shared their suggestions like carpooling, use of eco-friendly vehicles, LED lights, switching off the engine at the red light, etc.

ECOLOGY CLUB [IX - XII]

The club Incharge discussed Hydroponics and its relevance in the coming times. Additionally, the students of classes IX and XI are required to make portable hydroponic models with a single plant growing. This model is to be prepared during their winter break. The students of classes X and XII are required to make Charts related to Eco Cycles. The submission of all the models and charts is to be done in the next meeting.

Healthy Lifestyle Tips

ECOLOGY CLUB

TIP OF THE WEEK

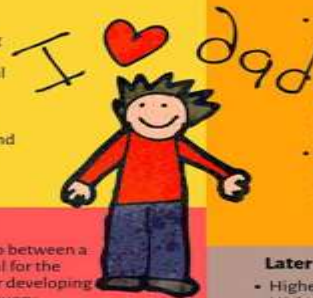

BEING A FATHER IS NOT OPTIONAL

Being a father requires constant and everyday involvement, physical presence, active participation, and genuine interest.

Early development:

- Fathers' active involvement in the care of their babies, during the first eight weeks of their lives, can help the latter to deal with school stress more effectively as they grow up.
- A baby can develop attention when they feel the presence and involvement of their father in their life.

Game:

- Fathers participate in more physical and stimulating games with their children than mothers. Children who participate in physical activities with their father learn to express their feelings and develop social competence.
- Children choose their father as a play partner and their mother as the key person who will free them from stressful situations.

Fathers as role models:

- A close and warm relationship between a father and his daughter is vital for the child's self-confidence, for her developing a high sense of feminine adequacy.
- Fathers who participate actively in the lives of their sons and take care of them help them develop and internalize model values and attitudes; sons become good fighters in life.

Later development

- Higher cognitive abilities
- Higher empathy
- Improved school performance
- Stronger motives to succeed
- Enhanced social skills and value system
- Stronger sexual identity

Personal and family benefits:

- A man assuming family roles can feel happy and satisfied.
- An involved father tends to be more generous and caring in middle age.
- A man who focuses on his career and, at the same time, invests in his children has better overall health and lower stress levels.
- When a father actively takes care of his children, his wife feels less stressed. They make a good team and complement each other.
