# WORKSHOP

A leading career choice that stimulates one's mind to opt for finance is none other than chartered accountancy. Qualifying as a chartered accountant provides a person with a keen understanding of how organizations work through finance. In tune to this idea, the school conducted a workshop organized by ICAI (Institute of chartered accountants in India). The resource person CA Mr. Atul Agarwal began the session on a striking note by highlighting the percentage of accountants in India out of the total population. It was extremely captivating to understand the placement opportunities, fee Structure and the scholarship schemes provided by the organization. ICIA as a partner in nation building believes that hard work with dedication is the mantra of a successful CA. He also informed about the registration process and the various benefits of D.L.H. (Digital Learning Hub). The session was truly informative and enlightening for everyone. A special mention to the Principal of the school Ms. Ruchika Sharma for conducting such educational workshops.

# TIP OF THE WEEK

## On Children

*Kahlil Gibran*

Your children are not your children.  
They are the sons and daughters of Life's longing for itself.  
They come through you but not from you,  
And though they are with you yet they belong not to you.

You may give them your love but not your thoughts,  
For they have their own thoughts.  
You may house their bodies but not their souls,  
For their souls dwell in the house of tomorrow,  
which you cannot visit, not even in your dreams.  
You may strive to be like them,  
but seek not to make them like you.  
For life goes not backward nor carries with yesterday.

You are the bows from which your children  
as living arrows are sent forth.  
The archer sees the mark upon the path of the infinite,  
and He bends you with His might  
that His arrows may go swift and far.  
Let your bending in the archer's hand be for gladness;  
For even as He loves the arrow that flies,  
so He loves also the bow that is stable.
