

Circular – Saturday Activity – 16th May 2020 (Classes III – V)

Dear Parent,

Greetings from Pragyan!

Stories teach us about life, about ourselves and about others. **Storytelling** is a unique approach which helps in developing robust connections with children. A well narrated story can help children in developing an understanding of the world around, inculcate respect and appreciation for other cultures, and promote a positive attitude towards people from different lands and religions. **Value-based stories** especially help students to raise their self-esteem and take greater responsibility for their own behaviour and learning. They are also able to use these learnings in their life.

Keeping in mind the importance of stories in our lives, we plan to organize an **English Storytelling Session – ‘The Untold Tales’** for the students of classes III to V on **Saturday** i.e. **16th May 2020** from **11:00 am onwards**. Each child will narrate an interesting story with proper actions and voice modulation. Student should also emphasize upon the learnings they attain from the story which they can use in real life.

Looking forward to a fun-filled and informative session.

Warm regards

Ms. Ruchika Sharma

Principal
