# CYBER SECURITY

## “TIP OF THE WEEK”

## THINGS TO KNOW ABOUT CYBER ETHICS

Cyber ethics refers to the code of responsible behaviour on the Internet.

The basic rule is "Do not do something in cyberspace that you would consider wrong or illegal in everyday life."

### Considerations When Determining Responsible Behaviour

- Do not use rude or offensive language.
- Do not cyberbully.
- Do not plagiarize.
- Do not break into someone else's computer.
- Do not use someone else's password.
- Do not attempt to infect or in any way try to make someone else's computer unusable.
- Adhere to copyright restrictions when downloading material from the Internet, including software, games, movies, or music.

# PRECAUTIONS FOR COVID19

Social distancing, also called “physical distancing,” means keeping a safe space between yourself and other people who are not from your household. To practice social or physical distancing, stay at least 6 feet (about 2 arm’s length) from other people who are not from your household in both indoor and outdoor spaces. Social distancing should be practiced in combination with other everyday preventive actions to reduce the spread of COVID-19.
