

Circular – Saturday Activity – ‘Virtual Trip’ (Classes I and II)

Dear Parents,

Greetings from Pragyan!

The human- animal bond is defined as a mutually beneficial and dynamic relationship between these species. Animals can sense our moods, and have the ability to bestow a sense of joy and peacefulness in our lives. Spending time with animals can increase a child’s self-esteem, enhance socio-emotional skills and even promote his/her cognitive development.

Keeping this in mind, we are organizing a **Virtual Trip – ‘The Extraordinary World of Animals’** for our students of classes I – II on **Saturday, 16th May 2020** from **11:00 am to 12:00 noon**. This would give them an opportunity to explore more about animals, their habitat, eating habits etc. within the comfort of their home.

The session would begin with a virtual tour of the animal kingdom, accompanied with facts and information on animals that will be shared by the respective class teacher. This would be followed by an interactive session wherein each student will get an opportunity to share some facts about animals with the rest of the class. Students will be allotted one animal each by the class teachers prior to the session and will be asked to find out and prepare two facts on the same for the discussion.

We hope that this virtual session would enlighten our students and bring them closer to the world of animals!

Warm regards

Ms. Ruchika Sharma

Principal
